

Environmental, Social and Governance Data

Our responsible and sustainable business approach is rooted in what matters to our wide range of stakeholders.

As a demonstration of this, within the following pages you will find a summary of environmental, social and governance data from across Aviva's global operations. This brings together key metrics that can be found across our reporting suite, to give our stakeholders the information that matters to them. It also includes more details of our Corporate Responsibility KPIs (pages 8-9) and our assurance statement from PwC (pages 10-11). The content supports information supplied on www.aviva.com/social-purpose, including our Corporate Responsibility (CR) Summary and reporting criteria, as well as the CR information integrated throughout our 2018 Strategic Report, which can be found at www.aviva.com/2018ar

2018 data marked **AS** has been subject to independent assurance. PwC's assurance statement can be found on pages 8-9 of this document. Aviva's reporting criteria can also be found at www.aviva.com/social-purpose

2018 data marked **AF** has been taken from the audited financial statements of Aviva plc. These statements and the audit report can be found on page 94 to page 252 of the Aviva Annual Report and Accounts 2018.

Data marked **KPI** are outlined in further detail on pages 10-11 of this document.

Our business is aligned with the United Nations Sustainable Development Goals (SDGs) agenda. Elements of our work impact each of the SDGs, but we also focus our efforts on those which we believe align most closely with our strategic priorities. Within this document, we have also indicated where we believe specific SDGs align with the data supplied, although this is not exhaustive.

- As a percentage of those companies we invest in with whom we have voting rights. When exercising our right to vote in company meetings, we are interested in the principles of good governance and how these are achieved in practice to promote the best long-term prospects for the companies in which we invest. Our approach is set out in detail in our UK Corporate Governance and Corporate Responsibility voting policy, which can be found at www.avivainvestors.com/en-gb/institutional/about-us/responsible-investment.html
- Substantive engagement is now categorised using higher threshold of contact. This would include direct interactions with companies, both on an individual and collective basis.
- Prior to 2018, Speak Up was known as Right Call.
- This is a biannual process and is next due in 2019.
- Human rights engagements cover a multitude of topics including child labour, working conditions, living wage, indigenous peoples' rights and access to medicine.

Sustainability rankings

Demonstrated climate leadership with our second place ranking (out of 80) in the Asset Owners Disclosure Project 2018

We were ranked the 2nd highest insurer and our ClimateWise score for 2018 was 78%

Environmental data covers 100% of Aviva staff including 100% of joint ventures. In 2018 there were 37,628 employees.

1. Changes to annual electricity emission factors is at 6.78% – our reporting criteria states that if this is above 5% we restate for a relative comparison. Absolute figures have not been affected.
2. We have restated our 2016 waste figures to account for an overstatement in one market and an understatement in another market. We identified such instances through a further review of the data reported. Before this restatement, the 2016 figure was 4,994.

Independent Limited Assurance Report to the Directors of Aviva plc

The Board of Directors of Aviva plc (“Aviva”) engaged us to provide limited assurance on the information described below and set out in Aviva’s Annual Report and Accounts and on the Corporate Responsibility section of the Aviva website for the year ended 31 December 2018.

Our conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information for the year ended 31 December 2018 has not been prepared, in all material respects, in accordance with the Reporting Criteria.

This conclusion is to be read in the context of what we say in the remainder of our report.

Selected Information

The scope of our work was limited to assurance over the information marked with the  symbol in Annual Report and Accounts and on the Corporate Responsibility section of the Aviva website for the year ended 31 December 2018 (the "Selected Information" as found on pages 8 and 9).

The Selected Information has been listed below and the Reporting Criteria against which it was assessed can be found in the Corporate Responsibility section of the Aviva website page, together with the Environmental, Social and Governance document containing the Corporate Responsibility KPIs and Assurance Statement document for the year ended 31 December 2018.

1. % of employees who confirm that they have read, understood, and accepted the Business Ethics Code annually
2. % of CO₂ e emissions offset annually
3. % reduction of CO₂ e emissions relative to our 2010 baseline
4. CO₂ e emissions (tonnes) – absolute
5. CO₂ e emissions (tonnes) – relative
6. Water consumption (m³) – absolute
7. Waste generated (tonnes) – absolute
8. % of managed supply that has been engaged on Corporate Responsibility during the term of their contract with Aviva
9. Amount of community investment, £

Our assurance does not extend to information in respect of earlier periods or to any other information included in the Annual Report and Accounts 2018.

Professional standards applied and level of assurance

We performed a limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) ‘Assurance Engagements other than Audits and Reviews of Historical Financial Information’ and, in respect of the greenhouse gas emissions, in accordance with International Standard on Assurance Engagements 3410 ‘Assurance Engagements on Greenhouse Gas Statements’, issued by the International Auditing and Assurance Standards Board. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

Our Independence and Quality Control

We applied the Institute of Chartered Accountants in England and Wales (ICAEW) Code of Ethics, which includes independence and other requirements founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

We apply International Standard on Quality Control (UK & Ireland) 1 and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our work was carried out by an independent team with experience in sustainability reporting and assurance.

Understanding reporting and measurement methodologies

The Selected Information needs to be read and understood together with the Reporting Criteria, which Aviva is solely responsible for selecting and applying. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measurement techniques and can affect comparability between entities and over time. The Reporting Criteria used for the reporting of the Selected Information are as at 31 December 2018.

Work done

We are required to plan and perform our work in order to consider the risk of material misstatement of the Selected Information. In doing so, we:

- made enquiries of Aviva's management, including the Corporate Responsibility (CR) team and those with responsibility for CR management and group CR reporting;
- evaluated the design of the key structures, systems, processes and controls for managing, recording and reporting the Selected Information. This included visiting head offices in two out of fourteen markets, and performing alternative testing procedures for the remaining twelve markets, selected on the basis of their inherent risk and materiality to the group, to understand the key processes and controls for reporting site performance data to the group CR team;
- performed limited substantive testing on a selective basis of the Selected Information to check that data had been appropriately measured, recorded, collated and reported; and
- considered the disclosure and presentation of the Selected Information.

Aviva's responsibilities

The Directors of Aviva are responsible for:

- designing, implementing and maintaining internal controls over information relevant to the preparation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- establishing objective Reporting Criteria for preparing the Selected Information;
- measuring and reporting the Selected Information based on the Reporting Criteria; and
- the content of the Annual Report and Accounts and on the Corporate Responsibility section of the Aviva website for the year ended 31 December 2018.

Our responsibilities

We are responsible for:

- planning and performing the engagement to obtain limited assurance about whether the Selected Information is free from material misstatement, whether due to fraud or error;
- forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- reporting our conclusion to the Directors of Aviva.

This report, including our conclusions, has been prepared solely for the Board of Directors of Aviva in accordance with the agreement between us, to assist the Directors in reporting Aviva's corporate responsibility performance and activities. We permit this report to be disclosed and on the Corporate Responsibility section of the Aviva website for the year ended 31 December 2018 to assist the Directors in responding to their governance responsibilities by obtaining an independent assurance report in connection with the Selected Information. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Board of Directors and Aviva for our work or this report except where terms are expressly agreed between us in writing.
